

QUIT PIECE BY PIECE GO SOLAR AT PEACE

Solarworld® is a professional choice to
build robust and reliable systems

Residential

Commercial

Industrial

Our Mission is to make **Clean Energy Accessible!**

To do that, we develop and deliver intelligent and reliable renewable energy solutions that cater to your unique energy needs.

Affordable

We make the transition to a cleaner future economical.

Reliable

We build relationships that last the test of times.

Easy

We're just a call away for all your solar needs.

Why Choose **Solarworld**[®]

Unmatched Client Satisfaction

We have a 97% repeat client rate. Our system perform efficiently with quick service support to resolve queries/ issues.

Compatible Components Generate Maximum Output

All parts are Solar grade, carefully selected to match each other. This ensures maximum energy harvest. Often integrators mismatch components resulting in poor output.

Hassle Free Installation in No Time

Our ready-to-use systems are reliable and safe. Every package is carefully planned to meet any industry domestic, commercial needs easily.

Certified, Premium and Proven Technology

Solarworld has installed all over a thousands solar panels that are running seamlessly across sectors.

No Consulting Fees From our Solar Experts

Get guidance and tips about your selected solar system from our experts to optimise your usage.

One Step Solution for Everything Solar

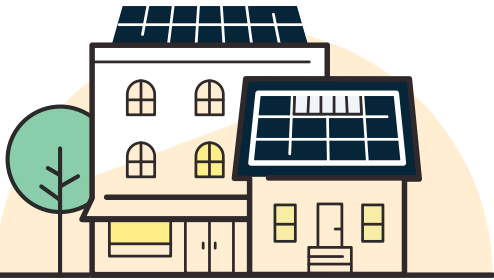

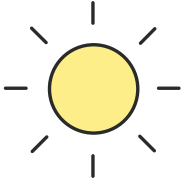

We offer all types of solar on-grid/ off-grid/ and more.

Product Diversity

We bring the best in class technology from around the world to provide with the best solar experience.
